Patient-specific prescriptions required in order to dispense. A physician must determine a compounded preparation prescribed is appropriate for a patient and document accordingly in the patient's medical record. Compounded items may require an attestation of clinical difference from the prescriber, practitioner administering the preparation, or practitioner's representative prior to the order being filled.

**Not available in CA.*

*** Not available in CA and MS.*

All injections available for Office Use from our 503B Outsourcing Facility unless otherwise indicated
